

From Local Roots to Global Reach

FLOWIN IMPEX LLP

Premium Agricultural Exports from India

About Us

Timmerman Industries is redefining the future of rice farming by integrating modern agricultural technologies with traditional farming expertise. Our approach focuses on maximizing productivity while ensuring that environmental balance and farmer welfare remain at the heart of everything we do. At Flowin Impex LLP, we don't just export products — we deliver stories of soil, seasons, and sincerity. What began as a belief rooted in Indian soil has grown into a global supply network built on trust and consistency. We source and export aromatic spices, nutrient-rich pulses, essential grains, fresh fruits & vegetables, and premium oil seeds. Every batch reflects the purity of India's farms and the integrity of the people who cultivate them. Through disciplined sourcing, strong supplier relationships, and quality-focused processes, we bridge the journey from origin to destination — delivering agricultural commodities that meet global expectations without losing their natural character..

Direct Farm Sourcing

Farm-level sourcing across India's key agricultural regions for purity & freshness

Flexible Packaging

Custom packaging & complete export documentation support for all markets.

Global Standards

Quality checks aligned with international export standards for every shipment.

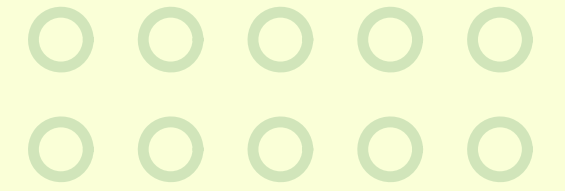

Ethical Practices

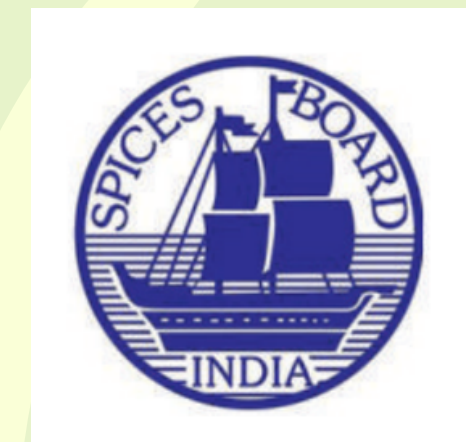

Sustainable and responsible supply chain management from field to port.
